Chairman's Report

Many thanks for attending this evening. Thanks for all your support, and looking forward to a good year!

Matt 2E0FNT Club Chairman

Secretary's Report

RSGB Affiliation has been renewed. We should create a register of members if we do something that relies on the RSGB third party insurance, without subs this is unclear. It's probably safe to list the Committee as members

Richard G7LEE

Vice-Chairman's progress report

As acting Treasurer I am able to say that the Club's *Magic Hat* financial policy (a Glastonbury tradition) seems to have been working well as having over the past year found ourselves able to afford to undertake a number of desirable technical projects we have done so.

These projects the restoration of a twelve-metre (40ft) telescopic, transportable lattice tower, the construction of a rotating HF beam to work on this tower and the research and development of a satellite earth station, and are covered separately on my report on the website¹ to follow.

Scout Hut

Following the death of G5FM and the retirement of 2E0RWW our arrangements with the Scout Organisation have lapsed, though the Scout Hut remains our registered address for exam purposes - however given the withdrawal of paper exams by the RSGB it will not henceforth be required.

The Club would like to thank the Scout Organisation for its patience and hospitality over the years and would be happy at any time to poach any of its members who show any interest in radio.

Chaz G6UVO

Election of Committee

No nominations had been received, the committee stood down and the re-election of the Committee which was unanimously carried by all present.

Mike 2E0RWW has stood down from the Committee due to other commitments.

A.O.B.

Exercise Blue Ham was a success for us² this year with a move back to the old weekend format. Next one is 21-22 June

We have moved to weekly meetings in the summer.

End of meeting minutes.
