Chairman's Report Matt M9MIM

Firstly Thanks very much to Richard G7LEE who has sadly had to move away for family reasons for all of his support over the years. And also to everyone that continues to support the club.

Also a big thank you to the donations of radio equipment from people to support club funds and projects. Back last year we introduced weekly club meetings starting at 5pm this has been a great success. And will continue. Club supporting other radio clubs was great, and we continue to support when needed..

Secretary's Report (from Richard G7LEE)

I will stand down as Secretary as of this meeting. I have moved a long way out of the area for family health reasons. I am happy to continue posting items to the website but I do need material ;)

Personally I'd quite like to occasionally call in on a Friday either on 40/80m sideband or via C4FM, possibly using the Priddy repeater and GB-SENGLAND or maybe using a hotspot on both ends.

I'd like to thank you all for many enjoyable Friday evenings for nearly a decade while I was in the area.

Election of Committee

According to procedure the Committee stood down. Usually the same committee is re-elected but on this occasion there were some changes.

Richard G7LEE has been obliged to retire after some years as Secretary owing to having moved to Suffolk for family health reasons. He has however very kindly undertaken to continue managing the website on which you are reading this; thanks for everything, Richard!

Club founder Mike 2E0RWW, having returned from a leave of absence, takes over as Secretary.

Transport officer Petra M7PAH remains in this role.

Chairman Matt M9MIM having served in this post for some seven years and coming under increasing career pressure has exchanged functions with vice-chairman Chaz G6UVO. Matt, to whom the Club is deeply grateful for his unstinting commitment, remains the Club's landlord and facilities manager.

Chaz G6UVO takes over as chairman and has introduced himself [separately](#)ⁱ

End of meeting minutes.
